

The image displays three architectural drawings of a building, labeled G2 in the top right corner.

- 南側立面図 S=1/100 (South Elevation):** Shows the south side of the building. It features a two-story structure with a flat roof. The roof height is 6.225m (軒高). The highest point is 6.645m (最高高さ). The second floor level is 3.461m (2階FL). The first floor level is 561 (1階FL). The design ground level is 561 (設計GL). The building has a total width of 10.5m. The facade includes several windows and a section labeled "防火サイディング 通気金物工法" (Fireproof Siding Ventilation Hardware Method). A note indicates "太陽光設置あり カパリウム立平333" (Solar panel installation, Kaparium vertical flat 333).
- 東側立面図 S=1/100 (East Elevation):** Shows the east side of the building. It features a two-story structure with a sloped roof. The roof height is 6.225m (軒高). The highest point is 6.645m (最高高さ). The second floor level is 3.461m (2階FL). The first floor level is 561 (1階FL). The design ground level is 561 (設計GL). The building has a total width of 10.5m. The facade includes several windows and a section labeled "防火サイディング 通気金物工法" (Fireproof Siding Ventilation Hardware Method). A note indicates "太陽光設置あり カパリウム立平333" (Solar panel installation, Kaparium vertical flat 333).
- 断面図 (東西) S=1/100 (Section Drawing (East-West)):** Shows a cross-section of the building. The total height is 6.225m (2階軒高). The first floor level is 3.425m (1階軒高). The first floor base level is 525 (1階基準高). The building has a total width of 10.5m. The section includes rooms labeled "洋室③" (Bedroom 3), "洋室②" (Bedroom 2), "洋室①" (Bedroom 1), "パントリー" (Pantry), and "LDK" (Living, Dining, Kitchen). The section also shows a staircase and a section labeled "防火サイディング 通気金物工法" (Fireproof Siding Ventilation Hardware Method).

The image displays three architectural drawings of a building, likely a residential structure, showing elevations and a cross-section.

Left Drawing: North Elevation (北側立面図 S=1/100)

- Shows the building's profile with a gabled roof and a small balcony on the right side.
- Vertical dimensions on the left indicate:
 - Design Level (設計GL) at 561.
 - First Floor Level (1階FL) at 561.
 - Second Floor Level (2階FL) at 3,461.
 - Roof Level (軒高) at 6,225.
 - Maximum Height (最高高さ) at 6,645.
- Horizontal dimensions at the bottom are labeled with Japanese characters: い, ろ, は, に, ほ, へ, と, ち, り, め, る, を.

Middle Drawing: West Elevation (西側立面図 S=1/100)

- Shows the building's profile from the west, featuring a gabled roof and a small balcony on the right side.
- Vertical dimensions on the left indicate:
 - Design Level (設計GL) at 561.
 - First Floor Level (1階FL) at 561.
 - Second Floor Level (2階FL) at 3,461.
 - Roof Level (軒高) at 6,225.
 - Maximum Height (最高高さ) at 6,645.
- Horizontal dimensions at the bottom are labeled with numbers: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10.

Right Drawing: Cross-section (断面図 (南北) S=1/100)

- Shows the internal layout of the building, including rooms and a balcony.
- Rooms labeled include: 洋室① (Bedroom 1), ホール② (Hall 2), LDK (Living, Dining, Kitchen), and タミコーナー (Tami Corner).
- Vertical dimensions on the right indicate:
 - First Floor Standard Height (1階基準高) at 525.
 - First Floor Roof Height (1階軒高) at 3,425.
 - Second Floor Roof Height (2階軒高) at 6,225.
- Horizontal dimensions at the bottom are labeled with numbers: 10, 9, 8, 7, 6, 5, 4, 3, 2, 1.
